How New Technologies Are Making Our Community More Accessible **Wednesday, October 3 12:30 p.m. Safety Harbor Public Library**

Learn about the different technology options for access:

- “Area loops” that make theaters, churches and meetings very hearing-friendly
- “Privacy loops” to make pharmacies, bank tellers and ticket booths more accessible
- Personal captioning systems that provide direct access to a movie’s dialogue or project a speaker’s words on a big screen or your computer monitor

Also learn which how to advocate for access at your favorite venues and who to follow-up with to get results

Speaker: **Jim Scott**
President, Complete Hearing Solutions
Board Member, HLAA Tampa Bay Advisory Board

Meeting supported by CART (captions) and a Hearing Loop System

The Meeting will also feature the:

- **Hot Tech Report** featuring a preview of a new, cutting-edge hearing technology
- **Social Networking Scholarship** offering a **free lunch** to a meeting attendee at the chapter’s post meeting social (Thanks to a grant from Complete Hearing Solutions)
- **Lunch Network Social** following the chapter meeting at the Paradise Restaurant, 443 Main Street (3 blocks West from the library on North side)
